

Charlie Sheen and Pressor Therapy

With a recent medical diagnosis, Charlie Sheen is focusing on his health and building immunity. Pressor Therapy is fantastic for boosting the Lymphatic system assisting the body to eliminate toxic cells in the human body.

Pressor therapy is beneficial for detoxification, swollen limbs, digestion, increasing blood and lymph circulation. It a very relaxing treatment in which we offer a 30min and 60min session.

Immediately after treatment, our patients instantly feel extreme relaxation followed by increased energy levels and clear minded.
